PROFILE

Tech Enthusiast - Skilled in C++, Flutter, Dart, Firebase, Node.js, Express.js, MongoDB, JavaScript, Android App Development, HTML5, CSS3 and Python.

I am currently studying Computer Science at Thapar Institute of Engineering and Technology, Patiala

EXPERIENCE

Microsoft Student Chapter, TU – Publicity and Logistics Head (September 2018–Present)

-Member of the Technical and Marketing Team at MSC, Thapar University, Patiala

Responsibilities:

- Created the official website and Event websites of the society (msctiet.co.in)

- Successfully organized various technical events, seminars, hackathons and coding contests in the college during the last 2 years

Hackathon and Projects:

-Developed a Child Death Review System (CDR) website using Firebase during **Startup Punjab hackathon**. It digitizes the medical records which makes them easier to create and maintain.

-Developed a Student-Teacher Interaction platform during **HackTU** using Node.js which allows students and teachers to discuss various projects they are working on and collaborate on projects they are interested in.

-Developed Electronic Health Records (EHR) for **Smart India Hackathon 2020**.
